Service Announces Public Scoping Process For American Electric Power's Proposed Conservation Plan for the American Burying Beetle

Project Covers 62 Counties in Oklahoma, Arkansas, and Texas

American Electric Power is developing a Habitat Conservation Plan (HCP) to address impacts to the endangered American burying beetle (ABB) that may result from the construction, operation and/or maintenance of electric transmission and distribution lines or other associated infrastructure in Oklahoma, Arkansas and Texas. The draft HCP would accompany American Electric Power's request for an Incidental Take Permit (ITP).

The U.S. Fish and Wildlife Service will prepare a draft Environmental Impact Statement (dEIS) to evaluate the impacts associated with alternatives associated with issuing the ITP to American Electric Power. The Service's dEIS will consider the proposed issuance of an Incidental Take Permit, supported by an HCP and a no action alternative. We are requesting public comment on the scope of the issues that the Service should consider in its environmental review of the proposed permit under the National Environmental Policy Act (NEPA). The Service will use the comments as part of the development of the environmental review as required by NEPA.

Written comments on alternatives and issues to be addressed must be received by the close of business on February 21, 2017. Comments may be submitted to the Service in one of the following ways:

- Electronically: OKES_HCP_EIS@fws.gov; or
- Fax: 918-581-7467, Attn: OKES HCP EIS; or
- U.S. Mail: Field Supervisor, Oklahoma Ecological Services Field Office, U.S. Fish and Wildlife Service, 9014 E. 21st Street, Tulsa, OK 74129.

During the 30-day public comment period, four public scoping meetings will be held from 5:30 p.m. – 7:30 p.m. in the following locations:

Monday, February 6th

Eastern Oklahoma State College McAlester Campus Conference Center 1802 E College Avenue McAlester, OK 74501 Tuesday, February 7th

Texarkana College Truman Arnold Student Center Levi Hall Conference Room 2500 N. Robinson Road Texarkana, TX 75599 Wednesday, February 8th River Park Events Building 121 Riverfront Drive Fort Smith, AR 72901 **Thursday, February 9th**Central Center
Auditorium
1028 E 6th Street
Tulsa, OK 74120

The U.S. Fish and Wildlife Service works with others to conserve, protect, and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people.
